Universal Healthcare Across the Lifecourse

APRU Global Health Conference 2020

THE 14th APRU GLOBAL HEALTH CONFERENCE | OCTOBER 19 to 21, 2020 (UTC+8)

The APRU Global Health Conference will focus on *Universal Healthcare across the Lifecourse* and define it in global health practice, research, and theory. The theme reflects not only the inter-dependence of the whole global society but also health equity throughout the lifecourse within and across countries.

The conference will be an invaluable opportunity for those working in the field of global health to share and exchange knowledge and build networks. The conference is organized in partnership with Fudan University and USC Institute on Inequalities in Global Health.
