2022 APRU Multi-Hazards Webinar Series: Looking ahead to the 2nd decade of recovery after the GEJET

The Great East Japan Earthquake and Tsunami (GEJET) occurred 11 years ago on March 11, 2011, and now we are already in the 2nd decade of recovery after this disaster. During the past decade, our perspectives, approaches, and required collaboration toward hazard risks and risk reduction have shifted and diversified through the experiences of COVID-19, climate change, and many more challenges. Looking forward into the 2nd decade of recovery after the GEJET, the major topics at this session will be:

- how should we scale up our recovery efforts?
- what should be the main focus for the next decade?
- how can we make the best use of these experiences to strengthen risk reduction efforts around the world?

Session 1

Session 2

IRIDeS
International Research Institute
of Disaster Science
災害科学国際研究所

Session 1

(1 hour)

For Americas: March 14 at 7 pm (Los Angeles) / 8 pm (Mexico City)

For Asia & the Pacific: March 15 at 9am (Bangkok & Jakarta) / 10 am (Hong Kong & Manila) / 11 am (Tokyo) / 1 pm (Sydney) / 3 pm (Auckland)

Shinichi Egawa

Professor,
IRIDeS, Tohoku University

Elizabeth Maly

Associate Professor,
IRIDeS, Tohoku University

Session 2

(1 hour)

For Americas: March 24 at 7 pm (Los Angeles) / 8 pm (Mexico City)

For Asia & the Pacific: March 25 at 9am (Bangkok & Jakarta) / 10 am (Hong Kong & Manila) / 11 am (Tokyo) / 1 pm (Sydney) / 3 pm (Auckland)

Yuichi Ono

Professor,
IRIDeS, Tohoku University

Julia Gerster

Assistant Professor,
IRIDeS, Tohoku University

Takako Izumi (Moderator)

Associate Professor,
IRIDeS, Tohoku University
Director, APRU Multi-Hazards
Program
