Auckland University of
Technology

Takako Izumi (Moderator)

Associate Professor,
IRIDeS, Tohoku University
Director, APRU Multi-Hazards
Program

Higher educational institutions (HEIs) have had to undergo significant transformations during the COVID-19 pandemic. Some countries have also experienced both the pandemic and natural hazards. However, the situation has given HEIs a good opportunity to review their campus disaster preparedness, response, and recovery capacities. This session will share the HEIs' experiences of responding to COVID-19 and new ideas to overcome the challenges.
